

## **ACCUMULATOR SPHERE SURCHARGE POLICY**

Thank you for purchasing from Flying Spares. As you will be aware, we have included a refundable surcharge on your accumulator sphere. When you send back your old core unit, the surcharge on this accumulator sphere will then be refunded.

***Please note we will only refund the surcharge in full if:***

- 1- The high pressure warning label is still attached
- 2- The charging cap is still attached
- 3- The small locating holes in the central ring are not damaged or distorted

Should we find any of the above items missing, damaged or distorted, you will be refunded less the amount for each item to be replaced or repaired.

Please try to ensure that no fluid can leak from the exchange sphere.

If you are unsure about this policy, please contact us prior to fitting the sphere.
