

Flying Spares

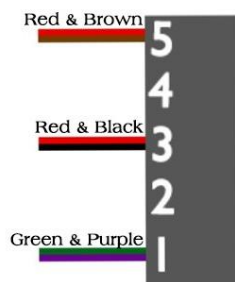

UD6089 to RH13253 wiring transposition

The later RH13253 actuators can be used on the early models. As the early actuators UD6089 are 4 pin and the later actuators RH13253 are 5 pin, there is a small change in how the actuator is wired. Below are the 4 different actuator locations and their respective wiring.

Upper Water Tap Actuator

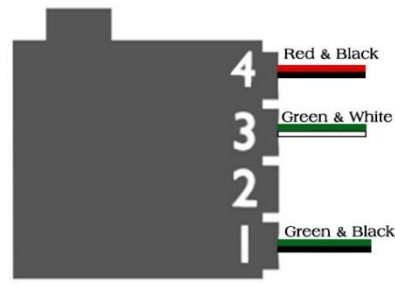

UD6089 (4 Pin)

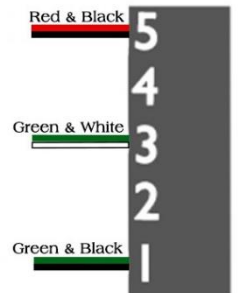

RH13253 (5 Pin)

Lower Water Tap Actuator

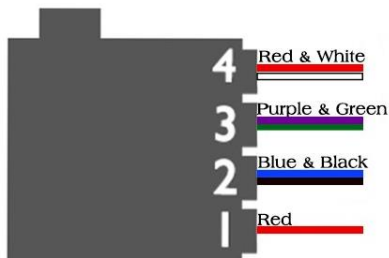

UD6089 (4 Pin)

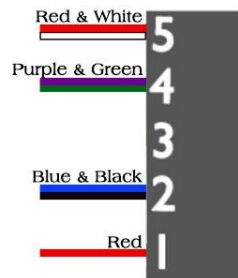

RH13253 (5 Pin)

Evaporator Actuator

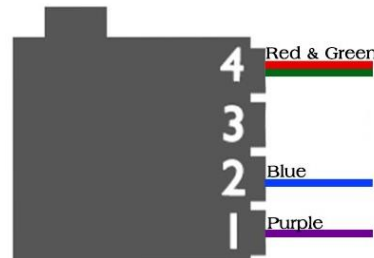

UD6089 (4 Pin)

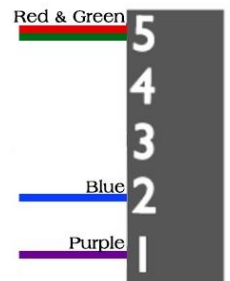

RH13253 (5 Pin)

Heater Flap Actuator

UD6089 (4 Pin)

RH13253 (5 Pin)
