

The logo for Flying Spares is centered within a dark blue rectangular box with a thin white border. The text "Flying Spares" is written in a white, serif font, with "Flying" on the top line and "Spares" on the bottom line.

FITTING INFORMATION FOR ALL SXR WINDOW LIFT MOTOR'S

Thank you for purchasing a reconditioned window lift motor unit from us.

Please ensure before fitting the reconditioned window motor the mechanism and glass runners on the vehicle are operational and not seized in any way.

A seized window mechanism can cause a misleading fault with the operation of the system, causing damage to the motor internally and may affect warranty.
