

Worldwide suppliers of quality post-War Rolls-Royce and Bentley parts

Job Description

Job title: Quality Engineer		Date: January 2026
-----------------------------	--	--------------------

Job post summary

Date posted: 20 January 2026

Pay: Up to £45,000.00 per year

Job Description:

About Us

We are a specialist automotive dismantler and parts supplier focusing exclusively on Rolls-Royce, Bentley, and Aston Martin vehicles. We purchase end-of-life and classic prestige vehicles, dismantle them in-house, and supply recycled, refurbished, OEM, and genuine new parts to customers worldwide. Quality, safety, and brand integrity are central to everything we do.

Due to the retirement of our long-standing QC Engineer, we are now looking to appoint an experienced and qualified professional to take ownership of quality control across safety-critical and engineering components.

The Role

As Quality Engineer, you will be responsible for inspecting, assessing, and signing off automotive parts before they are approved for sale. This role is safety-critical and requires strong technical judgement, attention to detail, and confidence in working independently.

You will be the final quality gate for components including (but not limited to):

- *Braking systems*
- *Steering and suspension components*
- *Engine and drivetrain parts*
- *Gearboxes and transmissions*
- *Electrical and mechanical assemblies*

Key Responsibilities

- *Inspect new automotive parts to ensure they meet safety, quality, and performance standards*
- *Identify wear, defects, damage, or non-conformity and determine suitability for resale*
- *Approve, reject, or specify rectification requirements for components*
- *Ensure compliance with internal quality standards and relevant automotive regulations*
- *Maintain accurate inspection records and quality documentation*

This Job Description is a guide and does not form part of your contract of employment. It may be reviewed periodically to meet business needs and your personal development. Any changes will be discussed, and additional training given where needed.

Worldwide suppliers of quality post-War Rolls-Royce and Bentley parts
